ETNA DCB BA Diamond Abrasives from Komet

The DCB ETNA grinders take the processing of ceramic materials to a whole new level. This product line is characterized by an exceptionally high cutting performance and a particularly long service life. The ETNA grinders are available in all geometric shapes and are suitable for all ceramics.

Advantages of the ETNA grinders:

- Exceptionally long service life
- Special diamonds for efficient removal
- High resistance to hard materials
- Effective and even material removal
- Smooth finish and fine surface texture
- Dimensionally stable

Product Code	DCB1BA.104.025	DCB2BA.104.048	DCB3BA.104.040	DCB4BA.104.120	DCB5BA.104.220	DCB6BA.104.120

DCB Diamond Abrasives

The yellow and green DCB abrasives from Komet are provided with a high-strength ceramic bond, they have stable edges and are resistant to fracture. This guarantees a 100 % cutting performance and a consistently high sharpness from the first to the last work step.

Features:

- Effective on all types of ceramics, including zirconium oxide
- Excellent service life
- Gentle, intuitive work without the need to apply pressure

SABILEX 2AD 400PLUS Injection Machine

The Sabilex 2AD 400 Plus Injection Machine operates with an LCD screen that allows for clear observation of the automatic injection process, time and temperature programming. Stores time and temperature information to inject 5 different materials.

- Heats up to 400 °C
- LCD screen
- Stores 5 programs
- Flask Cover
- Pneumatic piston
- Injection Pressure 630 kgs

Code	Description	Price
SABIL001	SABILEX 2AD 400Plus	£2,200

(All prices exclude VAT and carriage. E & OE)

SABILEX BioStrong 400 Plus Injection Machine

The Biostrong 400 Plus allows you to inject thermoplastic materials that require high temperatures up to 400°C. It can inject most varieties of injection materials available worldwide.

The LCD display allows clear observation of automatic injection process state, temperature and time settings. Stores information of time and temperature to inject 5 different materials. It's greater injection force offers optimum results and maximum precision.

- LCD screen
- Stores 5 programs
- Heats up to 400 °C
- Flask cover
- Injection pressure: 1000 Kg

Code	Description	Price
SABIL003	SABILEX BioStrong 400Plus	£3,300

Sprintvest C&B Investment

Our own one stop shop Investment! Quick-Cast Investment for use with precious or non-precious alloys for the casting of metal substructures as well as pressable ceramics.

Code	Size	Qty	Price
5968925	5Kg	50 x 100g + 1x1Ltr	£87

Pumice Sep Bims-Sep Antibacterial Pumice Additive

A ready to use liquid for pumice powder with a fungicidal and bactericidal action. Plasticises the pumice making it easy to use. Efficiently prevents unpleasant odours and permanently slows the drying of the polishing agent.

Code	Size	Price
203802	5L	£49

Basis Hi High Performance Acrylic Powder

BASIS HI is an acrylic elastomere, high impact resistance heat-curing resin for denture bases that can be used with any Universal H/C liquid.

Code	Size	Colour	Price
BASISHI/5	5Kg	V-Pink	£200

Feguravest MO Speed Expansion Liquid

Phosphate-bonded model casting investment material for rapid heating using silicone and gel duplication.

- Thin-flowing and long processing time
- Models smooth and edge-stable
- Exceptional fits
- Classic, step-by-step preheating is also possible.

Code	Size	Price
2171-400	50x400g	£115
2176	5 Ltr	£67.50

(All prices exclude VAT and carriage. E & OE)

ECO-CRYL Pro Polymer & ECO-CRYL Pro Monomer

Denture material for total and partial prostheses utilising the pouring technique. Self-curing.
CE 1639 ISO 20795-1 TYPE: 2, CLASS: 2

Code	Description	Size	Price
9045-021-RIV	Eco-Cryl Pro Polymer (Pourable Acrylic)	1kg	£89
9042-020	Eco-Cryl Pro Monomer Polymer	500ml	£39

Tiger White Polishing Compound. For Rapid Polishing of all types of Metal, inc. Titanium

Tiger White is a specially processed polish made from ultra fine aluminum oxide powder for use on Titanium Alloy, Pure Titanium, Chrome-Cobalt Alloy, Hard and Soft Metals, Acrylics and Composites.

Code	Size	Price
LEOPA001	400g	£25

SURE Mouthguard Blanks EVA

Mouthguard & Tray Material, featuring a total Smooth surface for comfort and appearance.
